## **Product Change Notification**

Product Part Number	VM800B43A-BK	Estimated implementation date
Description of Change	Update PCB design to Rev 2.3	July 2023
Reason for Change	<ol> <li>Enhance EMI performance</li> <li>Improve module assembly productivity</li> </ol>	
Detailed Description	<ol> <li>Move LCD FPC connector (J1) from bottom to top side</li> <li>Change host connector (J5) to SMD type</li> <li>Add R18, R31, C33, C34, C36, FB3 to improve EMI performance</li> <li>Remove EMI cloth/ EMI gasket/ Isolation foam</li> </ol>	
Impact to Data sheet	Update new PCB information	
Benefit of Change	Easy to do module installation at factory and improve the product reliability	
Markings to distinguish revised from:	PCB version (from Rev 2.2 to Rev 2.3)	
Sample Availability	Available now	
Risk Assessment, Fit Form and Function & reliability	No function impact, Fit form compatible to existing package.	
PDF Download	https://brtchip.com/document/product-change- notifications/
